Re: Request for Current Loss Runs (Claims History)

To Whom It May Concern:

We are looking to evaluate our claim history to better understand the impacts on insurance prices. In addition, we want to ensure we have no open claims that need our attention. We are doing our best to have the best run business and our attention to this matter is critical.

Please provide us with current loss runs with respect to my current policy(s) and any previous policy(s) with your company. We would appreciate if you would fax the reports to our office.

If you have our Workers Compensation too, please include our Experience Modification Worksheet too.

Your prompt reply to this request is very much appreciated.

Sincerely,
